coggle

Definitions
- CCL Community - Everyone who has ever been part of CCL
- SAG - Student Activity Group - volunteer parents with active students
- Core - without active students
- Whole Group = SAG + Core

CCL constitution — A community run program
- 2 types of members
  - SAG
  - Core members
- How does anyone from the community trigger a change?
  - A member of SAG is responsible for monitoring the CCL WhatsApp's group. Anyone in that group can propose a change.
  - If the SAG representative sees the change as legitimate, they will present it for discussion and, if needed, start 'The Vote Process'
- All significant changes or additions should follow 'The Vote Process'
- The Vote Process
  - Put a post on the SAG WhatsApp board, starting with the word 'CHANGE'
  - If no responses in 48 hours, implement changes
  - If comments are posted, then a new 48 hour clock is initiated for discussion, during which any one person can object,
  - if anyone objects, have a vote. Allow 48 hours, if needed, to get votes.
- The voting advantage goes to SAG
  - The SAG will see more turnover than the Core group.
  - There should be at least as many people in the SAG as there are in the Core
  - If the vote ends in a draw, then the side that had more people from the SAG wins the vote.
  - Changes to the constitution requires a 60%, other new additions/changes need 50%

Whole Group
- SAG
  - Courtenay
